# Barley to Beer

## The Amazone Training, Education & Research Facility – Orchard Farm, Hurst Lane, Auckley

Farming is all about finding markets for the food being grown. We need locally -sourced produce in the food chain so we rely less heavily on imported foods, the cost of which, due to unrest in the world, can soar and so home-grown food increases food security as well as keeping prices at a fair level. We at AMAZONE are always looking to introduce farming methods that can help protect the environment as well as providing food on the table.

Harvest 2023 saw a crop of spring barley being combined at Orchard Farm.

Spring barley, when grown properly to enable it to be used for malting, forms the ideal constituent of beer and we control the amount of

fertiliser applied to ensure the right nitrogen content in the grain so that the malting process can take place.

Clever fertiliser spreader technology reads a map via satellites telling it how much to apply and where to apply it so as to get the right quality of barley for that beer.

In 2023, in conjunction with Harper Adams University, we and a local farmer's son took part in a project here in Auckley to grow a sustainable barley crop. We have seen the effect that climate change is having on the weather with periods of drought followed by torrential rain which can run off the fields causing erosion if the soil structure is not capable of letting water infiltrate into the ground and help prevent flooding. The project looked at the effect of soil compaction on both yield and infiltration during differing cultivation techniques as well as looking at the level of CO<sub>2</sub> emitted by moving the soil.

*Take a look at the results of the project here.*

## Recycling at Auckley Show

**City of Doncaster Council** is pleased to be supporting Auckley Show this year, helping to reduce waste and increase recycling across the event.

To make recycling as easy as possible on the day, please use the correct bins provided around the site:

-  **Blue lid bins (Recycling)** – for paper/card, plastic bottles, cans, and cartons
-  **Green bins (Food waste)** – for all leftover food, including plate scrapings (only put the container in here if the food waste can not be taken out)
-  **Red lid bins (General waste)** – for anything that can't be recycled

Please follow the signage and take a moment to separate your waste correctly — a small action that makes a big difference.

Food waste collected at the show will be managed by our contractor, **Ellgia**, helping to ensure it is treated responsibly and kept out of general waste streams.

Supporting events like Auckley Show is part of our wider work across Doncaster to help reduce waste and improve recycling, both at home and in local businesses.

Simpler Recycling is being introduced across England to make recycling clearer and more consistent. This will mean a standard set of materials collected, including food waste, helping everyone recycle more easily and help increase recycling rates.

To find out more about waste and recycling in Doncaster, please visit: [www.doncaster.gov.uk/waste-and-recycling](http://www.doncaster.gov.uk/waste-and-recycling)

For commercial waste enquiries or to request a quote: email [commercialwaste@doncaster.gov.uk](mailto:commercialwaste@doncaster.gov.uk)

By working together and using the right bins, you can help keep the show clean, reduce environmental impact, and support a more sustainable Doncaster.

# Your Safety at Auckley Show

**First Aid** - can be found opposite main WC blocks (*marked by green flags, see E on plan*) or make contact with any Steward or Air Cadet personnel who will assist summoning help.

A **Defibrillator unit** is located on the outside wall of the Pavilion, facing toilet block.

**Lost Children and Property** – please report to the Information Desk in the YWP marquee (*look for yellow flags - also marked 1 on field plan*)

**Leaving and entering the Showground by car**- Entering the site and parking vehicles is entirely at the owner's own risk. Please follow the directions of our marshals, they are there to allow you to arrive and leave safely. Please pay attention to any instructions given to minimise the risk of accidents. There is a site wide speed limit of 5mph. Please obey the ONE WAY traffic directions and use extreme caution across the site.

**Pedestrians** please avoid the perimeter track used by vehicles. Remember this is a field site and the ground may be uneven in places.

**Families.** Please keep any young children under direct supervision. Please respect all safety barriers and take care in all parts of the site. Keep away from river bank.

**Easy Access toilets** are provided next to the main toilet blocks and near Eagle & Child Stage  
**Baby Changing facilities** are within these units.

**NO SMOKING** areas include within all marquees and all car parking places.

**Fire** - in the event of fire whistles will blow repeatedly, evacuate the marquees and wait for further instruction in the Play Area near main entrance to showground. Routes are marked by signs and are shown on our Field Plan.

If you discover a fire, raise the alarm by shouting "Fire". Do not put yourself at risk. Move away from danger in an orderly manner. Marshals will spread the alarm and assist in evacuation of any affected marquees.

**Fire Extinguishers and Fire Blankets** are located next to bar and next to stage in main marquee, next to the Eagle & Child stage in the Festival Marquee, and further extinguishers are located in the Pavilion, inside doorway to the right-hand side.

**Serious Threat of Danger.** If an incident occurs that is considered a risk to visitors, announcements will be made by public address speakers and repeated by stewards.

All visitors should then move to the centre of the Main Arena or Arena 2 as directed by stewards. If it becomes necessary to then evacuate the site instructions will be given as to which route to take. All persons must leave on foot. Vehicles must not be moved. Do not return to cars until it has been announced safe to do so. Be aware that police and rescue vehicles may need to enter the site through the main entrance. Keep the trackway clear.

**Field Plan.** A site plan is included in our programme and is available at our Information Desk. This shows the location of safety equipment and services. Also marked are fire exits and escape routes.

If you have any concerns or questions please let us know at our information desk. If urgent ask any marshal or steward, identifiable by blue Auckley Show shirt, high-viz jacket or cadet uniform, for assistance to communicate to our control centre.

*Auckley Show Committee on behalf of our community, would like to thank **558 Squadron Air Training Corp Finningley** for their service helping us deliver a safe community event*
